**V. Read the passage, and then decide whether the statements that follow are True or False. Write T for TRUE and F for FALSE:** (1,25pts)

Our oceans are becoming extremely polluted. Most of this pollution comes from the land, which means it comes from people. Firstly, there is raw sewage, which is pumped directly into the sea. Many countries, both developed and developing, are guilty of doing this. Secondly, ships drop about 6 million tons of garbage into the sea each year. Thirdly, there are oil spills from ships. A ship has an accident and oil leaks from the vessel. This not

only pollutes the water, but it also kills marina life. Next, there are waste materials from factories. Without proper regulations, factory owners let the waste run directly into the rivers, which then leads to the sea. And finally, oil is washed from land. This can be the result of carelessness or a deliberate dumping of waste.

1. The oceans are getting polluted because of people.
2. A lot of countries are guilty of pumping raw sewage directly into the sea.
3. Oil spills from ships only pollute the water.
4. Factory owners let the waste run directly to the sea.
5. Oil can not be the result of carelessness or a deliberate dumping of waste.
